Expand Options for Healthcare: Learn About Medical Cannabis

Scientific Research Supports Medical Cannabis

- **Why Cannabis?** Cannabis (marijuana) is a safe and effective medication. Medical research has proven that cannabis may be used as a treatment for people with serious medical conditions, such as: HIV/AIDS, Chronic Pain, Multiple Sclerosis, Cancer, Arthritis, Gastro Intestinal Disorders, Movement Disorders, and aging.
- **What can you do?** Get involved in the movement for safe and legal access to medical cannabis today. Become a member of ASA, join an ASA condition-based union, get involved with ASA's chapters and affiliates. We need people like you to help further safe and legal access for patients. For more information, visit our website, www.americansforsafeaccess.org or contact Sonnet, sonnet@americansforsafeaccess.org.
